

Continuum of Services For Adolescents with Sexual Maladaptive Behaviors

Intensive Residential Program (IRP) - Level I (Males age 12-17)*

Licensed and accredited Specialized Intensive Residential Treatment program in Mesa for the resolution of adolescent sexual conflict. The program's individual attention and treatment has been designed to positively impact the client, family members and the community. Special focus is given to identify and prepare a viable post-placement option for discharge, targeted within five months of intake.

Anticipated Benefit Highlights for the Intensive Residential Program (also see chart on back)

- ✓ Reduce youth's out-of-home duration compared to traditional residential treatment.
- ✓ Increase Clinical Intervention hours vs. traditional residential and community-based programs.
- ✓ Reduce risk to victims in the home and community by separation and treatment for both.
- ✓ Enhance youth and family treatment gains in a community-based program post discharge.
- ✓ Remove barriers to expedite transitioning youth back to the community.
- ✓ Provide a cost neutral (annualized) alternative to residential treatment when utilizing the combined Level 1 IRP and community-based IOP treatment.

Therapeutic Foster Care – HCTC Program (Males and Females age 8-17)*

Licensed Therapeutic Foster Care Program offering specialized home placements in the Greater Phoenix Area for youth with sexual maladaptive behaviors. This program provides children and adolescents the opportunity to live in a nurturing and stable environment with a "family-like structure" and to prevent "at risk" children and adolescents from going to higher levels of care.

Contact: Dawn Wallschlaeger, Cell: 480-226-5866 dwallschlaeger@turnanewleaf.org

Youth Intensive Outpatient Program – IOP (Males age 12-17)*

Licensed Intensive Outpatient Program located in Mesa, offers specialized treatment for the resolution of adolescent boys with sexual maladaptive behaviors. Services include individual and family therapy, group process, safety planning, case management and skill development up to 5 days a week.

Contact: Cami McCormick, Cell: 480-748-6364 cmccormick@turnanewleaf.org

Open Arms Program (Males and Females age 8-17)*

Home-based family and community-centered support services for youth in their environments, who are addressing sexually acting-out behaviors including, but not limited to inappropriate touch, sexual offending, promiscuity, poor boundaries, sexual reactivity, sexual acting out related to a history of being sexually abused. Intensity of services is based on individual need.

**Comparison chart for
Customary RTC vs. A New Leaf's Intensive Residential Program (IRP)**

Service Component	Customary RTC	A New Leaf's IRP
Assessment	Utilizes the standard assessment provided with the referral to populate the assessment licensing requirement.	Within the first 30 days of treatment, the program utilizes specialized assessments and interventions, in addition to standard assessment, to provide clear clinical direction to expedite treatment.
Clinical Services	Average 7 hours per week	Minimum of 16 hours per week, to include: group, individual, family and victim counseling.
Victim Counseling	None	Minimum of 1 hour per week
In-Home/Community-Based Counseling	None	Half of the victim and family counseling occurs in home or in the community.
Transition Planning	Plan with client, family and stakeholders in a consulting role.	At onset of placement (1) plan with client, family and stakeholders, (2) active pursuit of viable community resources (school, living, social and continued treatment) to ensure family and team have sustainable plan.
Transition to Community/Continuum of Care	Limited focus to ensure seamless service provision post discharge. Agency's continuum care may or may not exist.	Prioritization to ensure successful transition to community. Provide opportunity to obtain seamless services through A New Leaf's continuum of care to include: in-home support and clinical services, intensive outpatient services and transitioning to adulthood services.
Average Length of Stay	12-18 months	5 months
