

educational services department fact sheet

making education accessible

A New Leaf's Education Services works to come up with solutions to make education accessible for children, youth and adults. Through early childhood education programming, after-school programs for children and youth, and adult educational opportunities, we aim to help those seeking to further their education.

Our department offers facilities such as child care activities to promote progress toward behavioral health goals, different forms of education, financial aid advisement and college readiness help to attain their desired future.

making an impact

Since 1971, A New Leaf has provided assistance to those most in need in our community, helping families, children, and adults overcome the challenges they face. With a rich ecosystem of services, A New Leaf provides a comprehensive foundation for families and individuals who fall on hard times or are looking to get ahead.
